

eMeeting Packages

Suggested Applications

<ul style="list-style-type: none"> • Email 	<p style="text-align: center;">Cyber Cafe</p> <p>Wayport's Cyber Cafe provides meeting attendees with fast, convenient access to corporate and web-based email during meeting breaks. This service was specifically designed for meetings that don't require everyone in the meeting to have a simultaneous connection to the Internet. With Cyber Cafe, meeting attendees can keep on top of their email during meeting breaks, without losing focus on the actual meeting.</p>
<ul style="list-style-type: none"> • Presentations • Product Demos 	<p style="text-align: center;">Presenter Pack</p> <p>Designed for those meetings which have presentations dependent on reliable, high-speed access, this package is the choice for ensuring the continuity and success of a presentation. This service is excellent for groups looking to give a web-based seminar, demo a new software package, display a new product, or access online information.</p>
<ul style="list-style-type: none"> • Software updates • Virus scans • Hardware upgrades 	<p style="text-align: center;">Computer Upgrade Pack</p> <p>Ideal for performing virus scans and software upgrades, the Computer Upgrade Pack allows event attendees to have their laptops updated while attending a meeting. Removal of the Wayport Welcome Page allows laptops to be quickly connected for needed maintenance.</p>
<ul style="list-style-type: none"> • Meetings with up to 20 users • Training sessions • Small virtual office 	<p style="text-align: center;">eMeeting I</p> <p>Looking to conduct an Internet dependent event that requires high-speed access for all attendees? Wayport's eMeeting Pack I provides all the connectivity options needed to conduct an Internet based training or meeting. With 384K of bandwidth dedicated to the designated room and no login page to navigate, meeting planners and attendees are assured of a fast and trouble-free connection.</p>
<ul style="list-style-type: none"> • Meetings with 20-50 users • Training sessions • Warroom applications 	<p style="text-align: center;">eMeeting II</p> <p>Conducting a classroom style event with over 20 users? Wayport's eMeeting Pack II contains all of the elements of the eMeeting Pack I, but provides up to 50 PC connections and a dedicated support technician (via a toll-free number) to ensure meeting attendees have immediate access to phone support should the need arise.</p>
<ul style="list-style-type: none"> • Meetings with over 50 users • Multi-room events • Virtual office • Technology conferences • Interactive meetings 	<p style="text-align: center;">eMeeting III</p> <p>The eMeeting III solution is geared for the most demanding client's technology needs. Our team of technology event experts will assist in the pre-event planning stages by performing a full needs analysis with the client and hotel. Removal of the Wayport Welcome Page makes for a simplified connection process for all attendees. A Cyber Café will be provided in either a break out room or prefunction area to allow attendees email access at anytime. Up to 10 Static IP's will be available for connecting any peripheral systems (Network Printers, VPN Concentrators, etc.) to the network in a secure, seamless manner. Additionally, the integrity of the meeting room connection is assured with a minimum of 768K of guaranteed bandwidth.</p>

eMeeting Packages

Transform any package into a wireless meeting for an additional \$200 per day.

Save time and set-up costs by letting Wayport provide equipment and infrastructure to support a WiFi meeting. Enjoy the freedom and mobility of wireless high speed internet connectivity from anyplace within the meeting room.¹

Includes a fully configured Cisco Wireless Access Point.

Wayport eMeeting Comparison Matrix

	Internet Connection	Cyber Café ²	Presenters Pack	Laptop Upgrade Pack	eMeeting I	eMeeting II	eMeeting III
PC connections	1	40	4	100	20	50	100

Removal of Wayport Login Page³				X	X	X	X
Bandwidth Guarantee⁴			384 K		384 K	768 K	768 K
Static IP address					1	5	10
Dedicated phone support⁵						X	X
Additional IP address block⁶						X	X
Pre-event technical consultation							X
Network design⁷							X
Multi-room / multi-port availability							X
Cost	\$150/day	\$500/day	\$500/day	\$1400/day	\$1500/day	\$1800/day	\$3000/day

¹ Attendees are responsible for providing their own WiFi enabled computer.

² Includes one Cyber Café hub which supports up to 40 users per day. More than 40 users will require an additional Cyber Café.

³ Removal of Wayport firewall to allow direct access to the Internet. Eliminates splash page for an open connection.

⁴ 384K or 768K of bandwidth dedicated exclusively to the event to ensure the meeting's integrity.

⁵ A level 2 technician will be dedicated to the event for immediate technical support over the phone.

⁶ Increasing the IP address allocation to ensure each user will be able to obtain a dynamic IP address.

⁷ Wayport engineers will fully design and implement a hotel-based network to meet any specialized client needs.
